

1, Types of mediums ?

1. wireless
2. wired - copper (Ethernet)
3. Fiber optic cable

2, Write down switch 8-pins ?

- 1 T+ (Transmit)
- 2 T- (Transmit)
- 3 Receive +
- 4 POE V+
- 5 POE V-
- 6 Receive -
- 7 POE
- 8 POE

3, Connect utp cable between two devices

4, Explain AUTO MDIX ?

* Auto MDIX is feature of some NIC ports. It to be define a automatically identify a send & Receive Ports Convert a data into a NIC Port.

5, Explain POE injector ?

6, Explain POE switch ?

7, Explain types of nic & function ?

* NIC function called Network interface Card it define a learn MAC Address of Computer and, there be 2 types of Ethernetport (RJ45) it Convert a Electrical Binary data send and Receive of Transported, another one Radio frequency Transport of data in Radio wave and it Convert a binary numbers.
